

The Hydromex additive chemically enhances the fire fighting capacity of a normal water extinguisher. The result is a fire fighting medium so powerful that this 3 litre sized extinguisher has the same fire fighting capacity of a comparative model twice its size.

## Features

- Small extinguisher with no compromise on fire fighting capacity
- Lightweight model more portable and easier to handle
- Working pressure of 14 bar providing optimum discharge reach
- Custom designed plastic base for maximum durability
- Safe to use on electrical equipment of up to 1000V at a distance of 1m
- Complete with wall bracket
